**A word from your Golf Course
Superintendent: Andy Woolston**
andywoolston@cypresslakesgolfclub.net

The end of another growing season is upon us. This means that Holidays are right around the corner. On behalf of the maintenance crew, I would like to thank you for all the support and wish you a safe and Happy Holiday Season.

Frost delays are as much of an inconvenience for superintendents as they are for you. Agronomic principles prevent us from allowing you to play on frosted turf. Each frost delay is unique and there is no set answer for handling frost. 38 degrees Fahrenheit (read at the maintenance shop thermometer) seems to be the magic number. If the air temperature in the shade is less than 38 degrees, frost remains. We will utilize all available resources to prepare the golf course for play as soon as possible following a frost delay. Thank you for your patience and cooperation.

Tip of the month:

It is important to remove leaves from your lawn. If you can store and harvest leaves and debris, they will make great compost this time next year. Hold off on pruning ornamental trees and shrubs until mid-January to late February (only prune during months that end in “ARY”). Insect and disease damage is still possible if you prune too early.

Andy

Rule of the Month

Question: Does both the ball and my stance have to be inside the teeing area?

Answer: No, just the ball.

Rule: 6.2b

Good Luck! John

Pro Tip of the Month

Make sure when you set up that your club is at a 45 degree angle. Every club in your bag except your putter should be 45 degrees at address and at IMPACT. The key to perfect contact is to return the club back to where it started. Easier said than done but at least start out in the correct position.

Try these tips and I promise they will help your game.

Etiquette

You might think others cannot hear you if you are whispering but I guarantee you the guy hitting CAN.
