**A word from your Golf Course
Superintendent: Andy Woolston**

andywoolston@cypresslakesgolfclub.net

The end of another growing season is upon us. This means that Holidays are right around the corner. On behalf of the maintenance crew, I would like to thank you for all the support and wish you a safe and Happy Holiday Season.

Frost delays are as much of an inconvenience for superintendents as they are for you. Agronomic principles prevent us from allowing you to play on frosted turf. Each frost delay is unique and there is no set answer for handling frost. 38 degrees Fahrenheit (read at the maintenance shop thermometer) seems to be the magic number. If the air temperature in the shade is less than 38 degrees, frost remains. We will utilize all available resources to prepare the golf course for play as soon as possible following a frost delay. Thank you for your patience and cooperation.

Tip of the month:

It is important to remove leaves from your lawn. If you can store and harvest leaves and debris, they will make great compost this time next year. Hold off on pruning ornamental trees and shrubs until mid-January to late February (only prune during months that end in "ARY"). Insect and disease damage is still possible if you prune too early.

Andy

***Always play
READY GOLF.***

Rule of the Month

Question: Does both the ball and my stance have to be inside the teeing area?

Answer: No, just the ball.

Rule: 6.2b

Good Luck! John

Annual Tee Sign Sponsorship

\$400.00

(Includes Professional Sign)

Still holes available.

Pro Tip of the Month

Tighten up your heads.

If you have a driver, fairway wood, or hybrid that has an adjustable head, you need to tighten it up periodically (once per month). These type of heads have a tendency to loosen on their own. If not tightened you can break the shaft. It is not cheap to replace the shafts. If you need help with it, swing by my office and I'll be glad to do it for you.

Try these tips and I promise they will help your game. Good Luck! John
