**A word from your Golf Course
Superintendent: Andy Woolston**

andywoolston@cypresslakesgolfclub.net

Over the next few weeks we will be over seeding our tees and greens. Light frequent irrigation is needed until the seedlings have rooted. Since we are heading into fall and the Thanksgiving season, we are thankful for the improvements we have been able to accomplish over this past year. We also are very thankful for your patience and support while we have been making these improvements around you while you play. We will be starting our winter projects soon and will continue to make Cypress Lakes a fun place to play.

Happy Thanksgiving!

Turf Tip

It is nearing time to put your mowers away for the winter. Be sure to fill the fuel tank and use a fuel stabilizer. This will prevent moisture from collecting and ensure longer engine life. Clean your mowers thoroughly to remove all clipping debris and buildup. Moisture collects in the buildup and causes mower decks to rust. During the winter months, sharpen mower blades and coat with a light film of oil to prevent rust.

Andy

Rule of the Month

Question: My ball plugged in the lip of a bunker and was completely covered by sand. What do I do?

Answer: Find and identify the ball then re-create the lie but you can leave a small part of the ball visible.

Rule: 7.1b

Pro Tip of the Month

When putting, you should concentrate on the arc of the putt or (break of the putt). After you read the break, align yourself with the high point of the arc and stroke towards it. Most people read the putt and then concentrate on the hole and not the break.

Try this and you will hit the hole more often and miss more on the high side opposed to the low side.

Try these tips and I promise they will help your game.
