Tee it Forward!!!

Give it a try. You will have more fun.

A word from your Golf Course

Superintendent: Win Thomas

winthomas@cypresslakesgolfclub.net

We are well in to the transition period and I feel the course is in very good shape. Our bermudagrass has good color at this time but is not growing very rapidly due to cooler nighttime temperatures. When overnight temperatures reach 70 degrees Fahrenheit the bermudagrass will begin to jump.

The "clumpy" plant growth throughout the golf course is a combination of annual bluegrass and ryegrass. These two plants originate from our overseed and are relocated via cart traffic, mower traffic, and foot traffic. They will begin to die out in the next few weeks as temperatures increase and days grow longer.

Aerification of the putting greens, tees & fairways was very successful. The benefits of aerifying turf include revitalized, deeper, healthier root system.

I welcome all questions, comments, and suggestions. Feel free to stop by the office or call me at (850) 937-3887.

Win

Turf Tip of the Month

For healthy lawns follow these guidelines.

Bermudagrass- 1" to 2" mowing height

.5 to 1 pound of Nitrogen per 1,000 sq. ft. per growing month

Bahiagrass- 2.5" to 3.5" mowing height

.1 to .4 pounds of Nitrogen per 1,000 sq. ft. per growing month

Centipedegrass- 1" to 2" mowing height

.1 to .3 pounds of Nitrogen per 1,000 sq. ft. per growing month

St. Augustinegrass- 3" to 4" mowing height

(most cultivars) .5 to 1 pound of Nitrogen per 1,000 sq. ft. per growing month

**Irrigate deep and infrequent to
promote deep rooting.**

FootGolf Magazine

Pro Tip of the Month

The transition of your backswing and downswing is critical in hitting solid, accurate golf shots. The transition sets the tone for your swing path which dictates the direction the ball starts out. A loose casting move at the top will cause the club to cross the line and the ball will start out left of your target (right for lefties). This is the most common mistake. If you drop the club inside the line, the ball will start out to the right of your target (left for lefties). This is rare for golfers. There are a number of reasons why we make these mistakes. Here are just a few but most common:

1. Re-gripping during transition. Check your pressure points and gaps (July 2012 tip)
2. Flying elbows. Don't let your elbows separate (Sept. 2012 tip)
3. Tilting or dipping the shoulders. There should only be a slight tilt of the shoulders throughout the swing. (Feb. 2011 tip)

Our website:

www.cypresslakesgolfclub.net

has a library of past newsletters with monthly tips.

Try these tips and I promise they will help your game.

Good Luck! John

Weekly Dogfight Winners

April 2nd ... Bob Lake +8

Ava Rich

FootGolf hole-in-one
Mia Mauro aced #4 from
45 yards out.
Congratulations!!

Rule of the month

Question: My opponent was attending the flag for me while I putted. He failed to remove the pin and my ball hit the pin. Does he get a penalty?

Answer: No, since you authorized him to attend the flag, you get a 2 stroke penalty

Rule: 17-3

Did you know that?
